## About Me

I'm an aspiring developer passionate about tackling complex problems. I enjoy the process of optimizing systems. I'm always eager to learn new technologies. I have not had a conventional journey to become a developer but it has fostered a genuine enthusiasm for this industry. I am always eager to make new connections. When thrown in the deep end I firmly believe that determination will conquer any challenge.

## Technical Skills

- C++
- Javascript
- Python
- React
- CSS
- HTML
- NodeJs
- ExpressJs
- Bootstrap
- PostgreSQL
- MongoDB
- Mongoose
- API handling
- ChatGPT
- Git

## Experience

### Turtle Cafe

Part-time Manager 2018 - 2019

I was tasked with overseeing the staff. Ensuring customers were well taken care of. Was instrumental in planning and preparing for all events hosted at the cafe. Admin, purchasing, and balancing cash.

### Patco Holdings

Marketing and Admin 2020 - 2022

My main role was maintaining relationships & correspondence with current clients. Dealing with any logistical and general enquiries in order to provide smooth interactions. I also handled debtors and all IT and technical queries.

### Free Church

Intern 2023

I assisted with day-to-day needs. Graphics and UI for sermons and general info. Website maintenance using wix. Built LED lighting panels and used DMX controllers to sync to lighting desk.
